LANGUAGES

English — *Fluent*

Portuguese — *Native*

SUMMARY

I am a Full Stack Developer with 8 years experience in design, working mostly on e-commerce of fashion brands, designing landing pages which got me to want to learn programming languages.

As a developer I like the challenge to build web apps, researching for new functionalities to make it more practical to navigate through it, maximizing the user experience and bringing the client vision to life.

PROJECTS

Vórtx ([Website](#))

Responsible for creating a new website for Vórtx, since designing the layout of the pages until development and deploy.

Technologies used: React, Node.js, Next.js.

Ludo ([Project](#) | [GitHub](#))

A strategy board game for two to four players created using the MERN stack and web sockets, so it can be played online and more than one game at a time.

Technologies used: React, Node.js, Socket.io, MongoDB, Javascript, HTML, CSS, JWT and Heroku

Cosmic ([Project](#) | [GitHub](#))

A MEN stack CRUD app written with RESTful API where the user can check the horoscope and keep track of its accuracy. Inside the team, I had the role of front end developer, helping style and design the layout of this web app.

Technologies used: Node.js, Express, API, HTML, CSS, Heroku.

EXPERIENCE

Vórtx — Full Stack Developer and Designer

MAY 2019 - PRESENT | São Paulo, Brazil

Responsible for designing and development of a new institutional webpage.

Monte Carlo Joias — Design Coordinator

NOVEMBER 2015 - APRIL 2018 | Rio de Janeiro, Brazil

Reserva — Designer

JUNE 2015 - NOVEMBER 2015 | Rio de Janeiro, Brazil

Sephora — Designer

MAY 2013 - JUNE 2015 | Rio de Janeiro, Brazil

InBrands — Intern | Jr. Designer

MAY 2011 - MAY 2013 | Rio de Janeiro, Brazil

On my past experiences as designer, I created visual contents that best described the brands identity to different kind of media, as email marketing and banners, for website, social media channels. Also I developed HTML/CSS landing pages and newsletters.
